

Portable AccuTerm 7 Demo

04 October 2011

The content on this drive is presented using an "HTML Application" (.hta). If your computer supports AutoPlay for USB drives, you can simply choose "AccuTerm 7 Demo" from the AutoPlay list. If your computer does not support AutoPlay, or if you would like to re-launch the demo without removing and re-inserting the drive, double-click the "autorun.bat" file (MS-DOS Batch File) from Windows Explorer (or from My Computer, browsing the directory of this demo).

If your computer is unable to run "HTML Applications", you can launch the demo application, without any of the informational content, by double-clicking the "startdemo.bat" file (MS-DOS Batch File) from Windows Explorer. If you launch the demo application using "startdemo.bat", please take note of the following items:

This demo is designed to run on Windows XP (SP2 or SP3), Windows Vista and Windows 7. This demo uses a portable version AccuTerm 7.

The USB version of OpenQM used in this demo will start a server listening on TCP ports 4240 and 4241. If these ports are not available this demo will not run. Your firewall or security software may prompt you when the QM server starts; please allow (or unblock) this action, otherwise, AccuTerm will not be able to connect to QM.

Additional Files

To reduce the size of the download, some files have been omitted from the demo .zip file. Specifically, the Install directory which contains installers for AccuTerm and QM is not included, as are the AccuTerm GUI Tutorial files. If you wish to add these files to your copy of the demo, please download the following files and store them in the designated directory (note: D: in the table below is the drive letter of the USB drive containing the demo files):

<http://www.asent.com/downloads/atw70dsp1.exe> -> D:\Install\AccuTerm
http://www.openqm.org/downloads/qm_2-12-4.exe -> D:\Install\QM
<http://www.asent.com/videos/intro.wmv> -> D:\atdocs\tutorial
<http://www.asent.com/videos/lesson-1.wmv> -> D:\atdocs\tutorial
<http://www.asent.com/videos/lesson-2.wmv> -> D:\atdocs\tutorial
<http://www.asent.com/videos/lesson-3.wmv> -> D:\atdocs\tutorial
<http://www.asent.com/videos/lesson-4.wmv> -> D:\atdocs\tutorial
