

What's fresher?

Your produce or your technology?

Let Zumasys host all of your servers in a state-of-the-art data center while you get back to selling produce.

Benefit from:

- Disaster Recovery – Zumasys protects your data, handles all backups and runs your IT
- Browser-based access to applications from anywhere including in the field over 3G Wireless
- Predictable & Scalable Pricing – Rental licensing allows you to pay as you go
- Business Continuity – Run your business through virtually any disaster
- Never buy or upgrade your Famous server again

Zumasys data center Hosting solutions are ideal for small to medium businesses that want to spend more time running their business and less time managing IT. Our platform brings together the latest server virtualization technologies from VMware; storage and replication by NetApp; rental licensing from Microsoft; and powerful remote access from Citrix Systems. The result is an affordable, web-based solution that allows your users to log in from anywhere and keep your business running through virtually any disaster. Learn how our professional services team can migrate your existing applications to our data center and start benefiting from outsourced IT today! Call 866-ZUMASYS to learn more.
