

Spend more time running your business with Cloud Computing

To compete and thrive, your business can no longer rely on outdated and unreliable technology infrastructure. With Zumasys' cloud computing platform, you get the latest enterprise-class technologies for an affordable and predictable monthly fee. We move your existing business applications to a state-of-the-art data center and your users benefit from being able to log-in from anywhere with a Citrix browser-based interface.

Our cloud computing platform brings together the latest server virtualization technologies from VMware; storage and replication from NetApp; and rental software licensing from Microsoft, Citrix and others. Achieve IT as a Service and never buy or upgrade your core servers again!
