

ROVER Portal

BY ZUMASYS

Client and Supplier Business Automation Platform

Empower your customers to take action

Rover Portal is designed to streamline how your customers and suppliers conduct business through one centralized, branded online portal. This integrated web application allows customers to review quotes, pay invoices (credit card or ACH), place orders and more. Empower customers to proactively manage their interaction with your business and free up your staff to focus on higher-value tasks.

zumasys.com

Online Quotes and Sales Orders

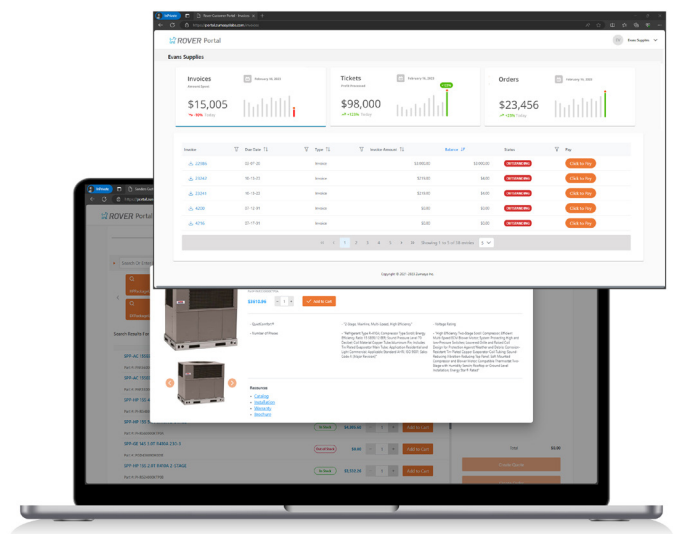

Transform your sales process and eliminate unnecessary manual work. Empower your customers, distributors, and sales reps to generate their own quotes and place sales orders online. Say goodbye to manual errors and hello to the convenience and accuracy of digital transactions.

View Invoices Online

No more back and forth emails explaining to customers which invoices have been paid. Allow customers to view all paid and unpaid invoices online in one simple screen, as well as the ability to download invoices, statements and copies.

Receive Payments

Give your customers the power to pay invoices anywhere, anytime by credit card or eCheck with just a few clicks.

Customer Portal Features

Shipment and RMA Processing

Provide customers with up-to-the-minute shipping information and RMA processing capabilities.

Supplier Access

Allow vendors to view inventory levels and receive order transmissions electronically from your ERP system.

Reporting

Run reports on accounts and display invoice status, payments, purchase orders, discrepant material, accounts payable and more.

PICK MultiValue Integration

Rover Hub's pluggable API architecture allows for native connections to PICK MultiValue applications and other unique data sources without complicated programming or application work-arounds.

5 More Ways Rover Hub Increase Your Productivity

- 1 Enables invoices to appear instantly on the portal as soon as they are generated
- 2 A/R accounts are updated real time when payments are made online by customers
- 3 Take your ERP automated payment reminders to the next level with payment links
- 4 Allows customers to manage their own account details
- 5 Eliminate double entering of quotes and sales orders
